

Fire-Fighting Helmet

SCA1205R

- SCA1205R designed to protect head under the most extreme circumstances as exposure to flame, high heat radiation, sunlight, rain and cold etc.
- SCA1205R offers high performance, unique and functional design features along with superior protection, fit and comfort
- SCA1205R guarantees advanced protection with ergonomic inner lining made of flame resistant fabric and impact resistant face shield.

Components

BASIC COMPONENTS		OPTIONAL COMPONENTS	
	Helmet		Neck protector(PBI)
			Neck protector (Aramid, Aluminized)
			Lamp holder

Features

Flip down face shield
 · Specially designed face visor is compatible with SCBA face-piece.

Boltless outer shell
 · Face visor and inner compartment are connected to hard shell without assembly hole.
 · Boltless outer shell allows high impact and penetration resistance.

3 point chinstrap
 · 3 point chinstrap securely fastens to protect helmet drop down from external shock

Specification

	Data sheet	SCA1205R
Material	Outer Shell	PEI[polyetherimide](KFI) / Nylon(CE)
	Suspension	Aramid webbing, Nylon, EPDM(Ethylene propylene diene monomer)
	Visor	PES [Polyethersulfone] with anti-scratch coating
	Size	Integrated adjustment system (52~64cm)
	Weight	1.4kg

Certification: CE(EN443:2008), MED & KFI(Korea Fire Institute)

SCA1205F

- SCA1205F is designed as multi-purpose, and its ergonomic design evenly distributes the weight to the head and relieves the neck muscles for fire-fighter's best performance
- SCA1205F does not deformed under influence of circumstances as exposure to sun, flame, high heat, rain and cold etc.

Components

BASIC COMPONENTS		OPTIONAL COMPONENTS	
Helmet	Neck protector(PBI)	Neck protector (Aramid, Aluminized)	Lamp holder

Features

Flip down face shield

- Specially designed face visor is compatible with SCBA face-piece.

Boltless

- Face visor and inner compartment are connected to hard shell without assembly hole.
- Boltless outer shell allows high impact and penetration resistance.

3 point chinstrap

- 3 point chinstrap securely fastens to protect helmet drop down from external shock

Specification

Data sheet		SCA1205F
Material	Outer Shell	PEI
	Suspension	Aramid webbing, Nylon, EPDM
	Visor	PES with anti-scratch coating
	Size	Integrated adjustment system (52~64cm)
	Weight	1.3kg

Certification: KFI(Korea Fire Institute)

SCA1205LR

- SCA1205LR is designed to meet the demand of emergency teams in search and rescue mission, such as road accident, height rescue and other operations.
- SCA1205LR is one of the lightest helmet in this class which relieves neck muscles and minimized burden to the head.

Components

BASIC COMPONENTS		OPTIONAL COMPONENTS	
Helmet	Goggles	Lamp holder	

Features

Integrated adjustment system

- Allows for a comfortable, secure fit thanks to its ratchet to adjust inner structure

3 point chinstrap

- 3 point chinstrap securely fastens to protect helmet drop down from external shock

Specification

Data sheet		SCA1205LR
Material	Outer Shell	PEI
	Suspension	Aramid webbing, Nylon, EPDM
	Size	Integrated adjustment system (52~64cm)
	Weight	0.79kg

Certification: KFI(Korea Fire Institute)
